Single Shot™ Insulating Suspension Clamp with Preloaded Nail

The "Single Shot™" Insulating Suspension Clamp is the only insulating suspension clamp with a preloaded nail. **Single Shot™** can be used anywhere that standard insulating suspension clamps are used, through a stud or hanging below a ceiling or basement floor joist. Since the nail is already pre-loaded, installation time is cut in half; simply snap the clamp around the pipe, hammer it in—and you're done. No more fumbling around trying to hold the clamp and nail while trying to hammer the nail into the stud or joist. Another labor saving item introduced by IPS Corporation.

Product Features

- The **Single Shot™** is available in 1/2", 3/4" and 1" sizes
- Fits CTS copper, CPVC and pex tubing
- Pre-Loaded Nail reduces installation time
- Job cost is reduced through nail and labor savings
- Reduces noise due to expansion and contraction of supply tube
- Available without nail for metal stud installation
